

Dear friend,

The Marathon for a Better Life is now a tradition in Schoharie County. For 24 years we have raised money to help Cancer patients right here in our own community and we can proudly boast that every cent stays right here in Schoharie County and goes directly to Cancer patients.

In 2009 the Marathon for a Better Life became a 501(c)3 – not-for-profit corporation, making donations made to the organization tax deductible. The marathon is also registered with the National Charities Bureau and the logo is now a registered trademark.

In 2013 thru 2019 the totals of funds raised were amazing. People in Schoharie County give from the heart. We truly live in a place where people take care of each other. Each year the Marathon sees an increase in the number of requests for help. Over 2000 Schoharie County residents fighting Cancer have been helped by the Marathon.

As these challenging times make it even harder to meet the expenses involved with fighting such a dreadful disease, it's more important than ever that we continue to raise the money for those who need our help.

The Marathon for Better Life does not have an office or paid employees. We are volunteers representing hundreds of other volunteers who care about others in Schoharie County. Thank you for your help. You are a vital part of the Marathon for a Better Life and we couldn't do it without you.

Sincerely,

The Marathon for a Better Life
Board of Directors
